## Safety, Health, Environmental and Quality Policy

PI recognises that the disciplines of safety, health, environmental and quality (SHEQ) management are an integral part of its management function. The company views these as a primary responsibility and as the key to adopting good business practises.

The company SHEQ Policy calls for continuous improvement in its safety, health, environmental and quality management activities and for the business to be conducted according to the following principals:

PI will:-

- Comply with all applicable laws, regulations, and customer requirements.
- Adopt a proactive approach to continuously improve all areas of the company's business and make best use of its management resources in all safety, health, environmental and quality matters.
- Meet our customers' needs and requirements whilst endeavoring to minimise adverse environmental aspects and pollution.
- Communicate its safety, health, environmental and quality objectives and targets and its performance against these objectives and targets throughout the company and to interested parties.
- Carry out a periodic review of the SHEQ objectives and targets to ensure their continuing suitability.
- Take due care to ensure that activities are safe for employees, associates, subcontractors, others who come into contact with our work and the environment.
- Work closely with our customers and suppliers to establish the highest safety, health, environmental and quality standards.
- Adopt a forward-looking view on future business decisions, adopting technologies, processes, materials, products and management practices which improve safety, health, environmental or quality performance.
- Train its staff in the needs and responsibilities of safety, health, environmental and quality management.

To assist the company in achieving its safety, health, environmental and quality requirements it is committed to documenting, operating and maintaining an Integrated Management System in a manner that sustains registration to International Standards ISO 9001:2000, ISO 14001 and OHSAS 18001. It is the company's belief that, in operating to these standards, it will meet the requirements of its customers and the Industry.
